

MANITOBA

Future Coverage Map

Coverage Maps for other provinces available at www.fido.ca/coverage

This map is a general representation of wireless coverage, where indicated. The areas shown are approximate. Actual coverage area may vary from map graphics. Reception may be affected by various factors, including system availability and capacity, customer's equipment, signal strength, topography and environmental conditions. Charges are based on the location of the site receiving and transmitting the signal, not the location of the subscriber. Future HSPA+ only areas require an HSPA device.
